

Satellite Business Internet

Our wireless solutions are ready to take a starring role or serve as your trusted backup. BCN's 4G LTE ensures that if your network goes down, your business stays up and running with no loss of data. When fiber is not an option – but neither is a slow network – fixed wireless is a fast and reliable alternative that's cost-effective and quick to install and deploy. And for critical applications in hard-to-reach locations, BCN's satellite business internet offers 35/4 Mbps (download/upload) plans – or faster – to over 96% of the U.S. population.

Nationwide Satellite Business Internet

A Viasat-based satellite business internet from BCN offers 35/4 Mbps (download/upload) plans to over 96% of the U.S. population. In select areas you can also get 60/4 Mbps and 100/4 Mbps plans. In the few places where 35/4 Mbps is not available, we offer 12/3 Mbps.

Better Backup Connection

Affordable and truly diverse secondary connection for business continuity solutions.

Prioritized Connection

Business customer data receives preference on the network, so you get the speeds you need during important business hours.

Enable Business Applications

Fast speeds allow businesses to run critical business applications such as VoIP, Point-of-Sale, IoT and more.

Quick Installations

A satellite business internet solution from BCN is typically installed in just 3 to 5 days, so businesses can get up and running immediately.

What To Expect From Our Network Solutions

FLEXIBILITY & AGILITY

Get exactly what you need from your network solutions. When time is of the essence, deploy smart solutions based on existing infrastructure.

RELIABILITY & UPTIME

Build out advanced networks that are resilient, reliable, and feature built-in redundancies to keep you running continuously.

COST SAVINGS

Pay only for solutions you need, cut equipment and maintenance costs, and lighten the workload of your IT staff.

NETWORKING FOR A WORLD OF 24/7 CONNECTIVITY

In an always-connected world, if you can't trust your network, your employees and customers can't trust you. Smart businesses rely on BCN's decades of experience and up-to-the-minute technology expertise to transform their networks from bottlenecks into accelerators.
