BCN

Cloud Firewall Service

The BCN Cloud Firewall Service is a revolutionary cloud-based unified threat management solution that delivers enterprise-grade protection to keep businesses safe from today's cyberthreats - and tomorrow's. BCN Cloud Firewall Service utilizes Zscaler Firewall Technology enabled by the AVAST Secure Internet Gateway (SIG). A fully managed and monitored solution, BCN Cloud Firewall Service uses advanced security techniques to provide reliable, always-on protection against web and Internet threats, including encrypted traffic (SSL inspection), across all locations, and users. For today's businesses, SSL inspection must be at the forefront of security concerns, with an ever increasing percentage of all Internet traffic now encrypted.

Security To Complement a Variety of BCN Solutions

BCN Cloud Firewall Service is available on BCN's entire line of Managed Equipment, and is easily layered onto any BCN Internet access solution including BCN SD-WAN. BCN solutions are crafted based on a portfolio of 75+ underlying network and technology partners.

LET BCN DESIGN A NEXT GENERATION COMMUNICATION TECHNOLOGY ROADMAP CUSTOMIZED FOR YOUR BUSINESS JOURNEY

BCN has the experience and flexibility to design an enterprise-wide, communication technology solution specifically tailored to your needs, while delivering what you value most.

A complete solution built upon our vast array of voice, data, cloud, and wireless services and technologies. A true roadmap that can fulfill legacy service needs, and most importantly provide pathways to new, leading and emerging technologies.

YOUR BCN SOLUTION WILL BE DESIGNED TO GROW OR CHANGE AT A PACE YOU DETERMINE

From connectivity to cloud to security, BCN will continue to embrace new services and technologies so that you can always go further. All this backed by an experience that is second to none.
