

A comprehensive cloud-based fax and document distribution solution to maximize productivity and cost-savings.

WE ARE BCN

A single source provider helping business clients find simplicity in complex multi-location, multi-network telecom deployments based on the portfolios of 75+ wholesale network partners.

SINGLE PROVIDER

A single-source for custom-configured solutions.

UNIFIED BILLING

All services at all locations on one monthly invoice.

CUSTOMER CARE

Single point of contact for 24/7/365 U.S.-based support.

OUR LEGACY

26 years of experience and thousands of business customers.

Businesses face increasing pressure to improve employee and process productivity, and to reduce operational costs. Whether an organization is small, medium or large, a cloud-based Fax solution from BCN meets these challenges by integrating and automating enterprise fax and document distribution with a company's existing business applications.

THE BUSINESS CHALLENGE

Many organizations rely on traditional, stand-alone fax machines, postal mail and expensive couriers to deliver vital business documents. Examples include documents requiring signatures such as loan applications, purchase orders, legal documents, invoices, financial statements, medical records and more. Traditional document delivery methods like these lack integration with business applications and lead to high document distribution costs and threats to compliance and privacy.

EFAX MEETS THE CHALLENGE BY

- Dramatically decreasing document distribution costs by digitally delivering documents from the desktop
- Protecting compliance and privacy by electronically delivering tamper-resistant documents, and reducing risk by ensuring documents do not sit on fax machines in public areas
- Integrating seamlessly with virtually any ECM, ERP, CRM, HIM, MFP, VoIP network, and many industry applications to maximize and extend the value of existing technology, infrastructure, and application investments

WITH BCN COMPLEX NEVER MEANS COMPLICATED

A single source solutions provider helping business customers find simplicity in complex multi-location, multi-service, multi-network technology deployments. Our expert teams deliver solutions crafted from the best-in-class portfolios of more than 75 unique wholesale network partners. BCN offers traditional and cloud-based voice, a variety of internet access and wireless options, SD-WAN, Managed Equipment, Network Monitoring, Security, and more. In addition, BCN provides customers with one monthly invoice for all services and a state-of-the-art portal to manage their BCN business. BCN is recognized for an overall ease of doing business, the accessibility and responsiveness of the entire team, and our superior service and support.
