

POTS Replacement

LIFE-SAFETY APPLICATIONS

Allow gates, alarms, and elevator phones to function if power or internet goes down.

DISASTER RECOVERY

Reliable, self-contained connections for a cost-effective failover alternative to copper lines.

POINT-OF-SALE SOLUTIONS

Keep your business moving and continue taking payments during an outage.

ENHANCED RELIABILITY

24-hour battery backup, dual SIMs and intelligent fail-over to PRI or Internet connection.

REDUCED COSTS Avoid the rising cost of analog lines and realize immediate and year to year cost savings.

Advance your business toward digital transformation

Our POTS Replacement solution connects fire alarms, emergency systems, fax machines, elevators and more to help your business meet regulatory and compliance requirements, and advance your business towards digital transformation.

BCN's fully managed and monitored solution provides a digital alternative for these specialty line applications, transforming them into a more cost-effective, cloud-enabled solution that delivers superior reliability and performance.

The Solution

Choose a device to support up to four or eight lines including critical Fire, Life, Safety (FLS) lines:

- Fire & Burglar Alarm
- Elevator
- Fax
- POS Terminal
- Vending & ATM Machine
- E-911
- Voice

Meet Critical Regulatory Compliance Requirements

- NFPA 72 (National Fire Protection Association) Compliant
- UL 864 (Underwriters Laboratories, Inc.) Compliant
- HIPPA
- Analog Fax with Fax to Email Complies with HIPPA End to End Encryption
- Point of Sale (POS) Systems – PCI Compliant

Dual LTE connections + broadband for redundant Internet connectivity

Integrated battery back-up providing hours of service uptime during power interruptions

Automatic status notifications (emails sent if device goes offline)
